**Scottish Housing Quality Standard (SHQS) – Stock condition survey information (Indicator C24)**

Please state:

C24.1 The date your organisation's stock was last surveyed or assessed for compliance with the SHQS

March 2019

C24.2 What percentage of stock did your organisation fully assess for compliance in the last four years?

40

C24.3 The date of your next scheduled stock condition survey or assessment

March 2020

C24.4 What percentage of your organisation's stock will be fully assessed in the next survey

50

C24.5 How did your organisation use the survey data stated at C24.2 to establish how the stock complied overall with the SHQS

Surveys & continuous assessment of stock: CHA has a target to annually survey 20% of all properties against the SHQS. This will provide close to a 100% stock condition survey over 5 years.

2018/19 Performance: A total of 75 surveys were undertaken throughout the year comprising 69 full surveys and 6 externals. This represents 11% of our total housing stock. Resources allocated for stock condition survey work were needed elsewhere on some larger planned projects. The Association will have additional resources in 19/20 to meet our ambitious target of 50%.

Targeted Sample Survey Data that is Representative of Stock: the 20% annual survey is selected through: an analysis of current surveys held compared to location, dwelling type, year built and relevant component qualities.

Databases & cloning: Stock condition data is held on an SQL database. Full SHQS survey data is cloned to unsurveyed properties within the same estate, based on dwelling type, year built and relevant component qualities. RDSAP data has been cloned to properties lacking energy efficiency data. RDSAP cloning has been made on the basis of matching surveyed properties with unsurveyed properties using location, dwelling type, house size and year built. Cloned data will decrease over time as accurate RDSAP data is gathered.

We have recently completed a pilot study of both system and their use, in 9 of our "off gas" properties. The results of this pilot are being collated in order to determine if we are to roll out the installation of these systems across the next financial year in order to meet the 2020 deadline.
